Things are going from bad to worse in poor old Phoenix. For months past a thirsty soul has been unable to get a drink of anything but water on Sunday in that burg. Now one can't even be buried on Sunday in Phoenix under an agreement signed by the ministers, undertakers and cemetery associations of that town. For some time ministers and undertakers have been trying to discourage Sunday funerals there, but met with such little success that they decided to formally draw up an agreement that will have the effect of making Sunday a day of rest for the undertakers.

AME NEAR CHOKING TO DEATH
A little boy, the son of Chris D. Peterson, a well known resident of Jacksonville, Iowa, had a sudden and violent attack of croup. Much thick stringy phlegm came up after giving Chamberlain's Cough Remedy. Mr. Peterson says: "I think he would have choked to death had we not given him this remedy." For sale by Safford Drug Co.

"Sure Cure"

"I would like to guide suffering women to a sure cure for female troubles," writes Mrs. R. E. Mercer, of Frozen Camp, W. Va. "I have found no medicine equal to Cardui. I had suffered for about four years. Would have headache for a week at a time, until I would be nearly crazy. I took Cardui and now I never have the headache any more."

Take CARDUI
The Woman's Tonic

The pains from which many women suffer every month are unnecessary. It's not safe to trust to strong drugs, right at the time of the pains. Better to take Cardui for a while, before and after, to strengthen the system and cure the cause. This is the sensible, scientific, the right way. Try it.

IS THERE A POSTAL DEFICIT?

It should be borne in mind that what President Taft calls the deficit in the Post-Office Department is earning a large surplus profit on the business it carries on for its patrons. Even if all publishers and private individuals and firms withdrew their business from Post-Office Department, the Government would still have its own large distribution of letters and printed material to make for Congress, for the Departments at Washington, and for the official business of several hundred thousand people constituting the civil and military services of the United States. It would probably have to pay from seventy-five to a hundred million dollars a year to carry on its own postal business. Yet the books of the Postoffice Department do not make any account whatsoever of this vast item. It is safe to say that there is no other government in the world whose postal department is not credited with the expense it incurs for handling the business of the other departments. It is a scandal and a public disgrace that business should be done so loosely at Washington that no post-office records are allowed to show what it actually costs to distribute the speeches of congressmen, the documents sent out from the Agricultural and other departments, and the millions of letters relating to government business. It is just as much a matter of government expense to transport official documents as to transport troops. The War Department makes record of the cost of transporting troops, but no reports of the Postoffice Department indicate the cost of carrying the government's own materials.
