Dr. Price's Cream Baking Powder

Made from grape Cream of tartar; absolutely free from alum.

For sixty years American housewives have found Dr. Price's Cream Baking Powder a guarantee of light, pure and wholesome food.

BIG ENGINE TAKES TUMBLE INTO A PIT

Starts Off by Itself and Comes to Grief at Belen.

Belen, N. M., Feb. 20.—An accident, which, but for the newer construction of the parts, might have caused considerable trouble and expense, occurred in the local Santa Fe yards, when one of the largest types of engines in use on that system, an immense Mallet, missed the turn table and plunged into the table pit.

The engine had been standing in the vicinity of the coal chutes and at the time there was no one in the cab. Without warning the monster engine started off. Its movement at first was slow and was unnoticed until it was some distance off. As it neared the turn table pit it was seen, but could not be recovered in time to prevent accident.

The long boiler, or rather combination of boilers, was equipped with what is known as an accordeon in the center. This piece of mechanism is designed to enable the long engines to go around curves, it allowing of some flexibility in the boilers. The accordeon opened out as the front part of the engine overbalanced and thus saved the remaining parts of the engine from any serious damage.

Belen has been a lively place socially for the past week, a number of social functions of various sorts having been given. Mrs. H. L. Abell was hostess to a number at a card party. Her home was prettily decorated and cards furnished the amusement for the afternoon.

The aid society of the Methodist church held a Valentine sociable at the home of Mrs. Barrer, there being a large attendance. Games in keeping with the occasion were played and contests were engaged in. On the same evening the home of Mrs. Paul B. Dalies was the scene of a happy gathering, she entertaining a company of young people in honor of Miss Lucy Becker, who left Friday for an extended visit in New Orleans. Games of various sorts were indulged in.

Mrs. C. C. Stubbs was hostess to a number of young people at one of the most charming parties given in Belen in some time. The time was pleasantly spent in solving contests and in playing games. Mrs. Stubbs entertained at her home. Five hundred was the principal pastime.

The annual business meeting of the stockholders of the John Becker company, the principal wholesale and retail store of Belen, has been held. The old board of directors was continued in office.

John Becker, Sr., is now completing pans for a visit to the Panama canal in a short time. He expects to sail from New Orleans on March 5 and will spend some time watching operations which are being conducted. He will be accompanied by his brother, Gus Becker, from Springerville, Ariz.

NEW JUDGE STARTS WORK BY MARRYING COHISE COUPLE

Solomonville, Ariz., Feb. 20.—The new county officers have taken charge and have assumed their new duties.

The first official act of superior judge A. G. McAllister was to perform the marriage ceremony for Eugene Higgins of Fort Apache and Bernice Rathburn of Cohise county.

Mrs. Frank M. Ringgold has returned from Globe, Ariz., where she has been visiting her brother and the family of W. H. Parks for two weeks past.

A number of the ranchmen are very busy loading and shipping hay.

A small dancing party at the court house was much enjoyed by all who attended.

Chas. W. Parks has returned from a business trip at Globe. He had been away several days.

David Holguin, the young violinist, has returned from Globe. He will visit with his mother and father for a short while before leaving for Brussels, Belgium, where he will complete his musical education.

Mrs. Effie Ross was in from the Sanchez settlement shopping.

SAFFORD HAS RABBIT HUNT AND BARBECUE

Teachers of County Meet at Thatcher; Recitation Contest Held.

Safford, Ariz., Feb. 20.—In the Jack rabbit hunt here Tom Wanslee won first prize, killing 41 of the long-eared, long-legged "green-eaters." The rabbits were barbecued.

The Parents' and Teachers' association of Graham county met at Thatcher and put in a very interesting day's work. There were about 300 persons in attendance. The morning session was made of greater interest owing to the recitation contest in which seven schools participated. Florence Nash, of the Thatcher school, won first; Claribel Stevens, from Fort Thomas, second, and a boy from Pima school was third. The Thatcher members entertained the entire crowd at dinner.

Charles Blom, age 82 years, an old pioneer of the valley, died at the home of Mrs. Ruth Anderson, just west of Safford. He was buried Monday afternoon.

Robert and William Wakefield and Will Hooks, who have been attending the Los Angeles Polytechnic High school, came home the latter part of last week.

The new warehouse of J. T. Owens on corner of L and Tenth streets, is nearly completed.

Miss Ada Thorsteusen has finished teaching at Dragoon in Cochise county and has returned home.

Banker Lathrop made a combined business and pleasure trip to Globe.

J. M. Foster of Los Angeles is spending a few days here.

Rev. Mr. Williams, of Globe, will conduct services at the Baptist church Wednesday evening.

COMMISSIONERS END MEETING AT FT. DAVIS

Fort Davis, Tex., Feb. 20.—Commissioners' court has adjourned after holding two days. Commissioner Sam Bunton, of Valentine, was over to attend court.

Harry Burns, of Springfield, Ill., is here visiting his sister, Mrs. W. E. Pruett.

Mrs. Mulburn, who has been ill, is able to sit up and take a few steps.

Mrs. McCutcheon still has some fever, but it seems to be getting gradually lower.

Frank Brown, who spent some time here, has returned to his home at San Antonio, Tex.

E. H. Carlton has gone to San Antonio on business.

The Misses Sproul entertained at a Valentine party at the home of their parents, Mr. and Mrs. R. S. Sproul. Nearly all the young people of the town and community were present and all kinds of heart games were indulged in. This was one of a series of Christian Endeavor socials which will be given here during the coming season. A lunch was served. Those present were: Mr. and Mrs. Wat Davis, Misses Bridges, Covington, Edens, Cobb, Alice Powell, Jesse Jones, Zora Finley, Lottie Powell, Mary Carlton, Graham Teague, Lena Shelton, Alice and Ruth Sproul; Messrs. Tyson, R. C. Williams, Warren Bloyce, Frank Jones, Otis Miles, Roe Miller, George Jones, Jack Ewell, Earl Weatherby, Kenneth Stewart, Lee Sproul, Mr. and Mrs. R. S. Sproul.

Mrs. James Edgar takes charge of the telephone exchange office today and will make her home at the office.

Miss Genevieve Tompson entertained the Sewing circle at the last meeting. Miss Mable Bloyce will be the next hostess for the circle.

Many of the farmers have their ground all plowed and ready for planting.

Miss Bridges, teacher for Mr. and Mrs. A. G. Prude, expects to have a short program in her school, February 22. A few friends have been invited out to the ranch to attend the exercises.

Rev. J. J. Maurer, of Marfa, has been here the past few days doing some painting.

Mrs. W. J. Ward has been ill for the past two weeks, but is much better.

W. T. Jones reports his cattle doing as well as he ever saw them for this time of year. He is an old time cow man in this country.

For The Nervous Woman,

Or the woman who experiences hot flashes nothing is so good to soothe, quiet and calm the nervous system as a pure glyceric extract of native medical plants, and made without alcohol, which has been sold by druggists for the past forty years, and most favorably known as Doctor Pierce's Favorite Prescription. In younger years some women suffer from dizziness, or fainting spells, hysteria, headache, bearing-down feelings and pain. All these symptoms of irregularity and female disturbance are relieved by the use of this famous "Prescription" of Doctor Pierce.

As a powerful, invigorating tonic "Favorite Prescription" imparts strength to the whole system, and in particular to the organs distinctly feminine. For over-worked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, it is an excellent appetizing cordial and restorative tonic.

MRS. MCDONALD.

"My disease was called retroversion," writes MRS. LYDIA MCDONALD, of Mecosta, Mich., Route 1. "I had nervous chills and numb spells and they would leave me very weak. Then I had inflammation and the doctor said I had a floating kidney. I doctored seven months with our family physician. He said I would have to have an operation. Then I stopped taking his medicine. After taking three bottles of Dr. Pierce's medicines I have not had any nervous chills or weak spells. I am better than for years.

"My daughter is now taking the 'Prescription' and Dr. Pierce's Golden Medical Discovery, also the 'Pellets' for nervousness and weak, tired feeling. These remedies have helped her ever so much in a short time. We have great faith in your medicines for female troubles."

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement.

SOUTH POLE MAY HAVE BEEN REACHED; FIVE NEW EXPEDITIONS AFTER IT

Englishman, Jap, Nowegian, German and Australian in the Hunt—Have all Been Away About Two Years.

LONDON, Eng., Feb. 20.—"South Pole discovered!"

Any day now that message may be flashed over the cables and telegraph wires that encircle the globe. The sender may be an Englishman, a Norwegian, an Australian, a German or a Japanese. Five expeditions, carrying the standards of as many different countries, have been battling against the cold and ice of the Antarctic for more than two years, and the first of them as expected to return in touch with "the outside world" about this time.

Stewart's island, south of New Zealand, is the first habitation that will be reached by the explorers on their return trips. A telephone connects the island with New Zealand, from where cablegrams will be sent out.

In this great five cornered competition for the sake of science and incidentally fame, the most celebrated contestants are Capt. Robert Falcon Scott, of England, and Capt. Roald Amundsen, of Norway. The Australian, Mawson, is leading a third band, and the Japanese and German expeditions complete the entry list in the unprecedented race. Never before have so many expeditions been in either polar region at one time.

"Competition is called the life of trade," said Sir Ernest Shackleton today, "and I believe that the spirit of contest must have exercised such an influence over the rival expeditions as to spur at least one of them to achieving the goal." Sir Shackleton is the English Antarctic explorer who, in 1909, attained the "farthest south," getting to latitude 88 degrees 23 minutes south, or within 110 miles of the pole.

"My national pride makes me hope that Scott will beat out Amundsen," he said, "and I have such confidence in him that I believe he has reached the pole whether Amundsen has or not. I know so little about the German, Australian and Japanese expeditions that I cannot justly speculate on their success, but I do not believe personally that any of them has done as well as either Scott or Amundsen."

Left England June, 1910

Capt. Scott left England on June 2, 1910, waving good bye to his wife and baby at Cardiff, Wales. He bade farewell to civilization at Christchurch, New Zeland, on November 29, and since then nothing has been heard from him. His ship, the whaler "Terra Nova," has returned to New Zealand and is awaiting the telephoned command to go to Steward's island and get her master and pilot, as well as his brave companions.

The Scott expedition is the best equipped that ever entered the south polar regions. Fitted out by a government appropriation of $100,000 added to a popular subscription of the same amount, everything that could possibly be of use was purchased. Over a hundred of the best Siberian sledge dogs, as well as three motor sledges, form part of the equipment, and in the party are several of the foremost scientists, geographers and astronomers in Britain.

According to the plans of Capt. Scott, outlined before he departed on his polar quest, he would establish two bases on the Antarctic ice barrier, one at MacMurdo bay, the two at King Edward's land, or some 450 miles apart, to be, if possible, connected by wireless telegraphy. Each of these bases would be about 850 statute miles from the south pole, and by means of them both ends of the barrier would be explored. It is known that the MacMurdo bay post was securely established by Capt. Scott, the news having been brought back to New Zealand by his ship, the Terra Nova.

How much more has been accomplished by the Englishman and his party is largely a matter for conjecture. From the MacMurdo bay base, over the 850 miles to the pole, the real work of the expedition had to be done. The explorer declared he expected to take from 120 to 150 days to make the journey to and from the base.

White Men at the Pole

Sentiment plays a part in the plans of Capt. Scott, who said before leaving that he would have white men with him at the pole. He commented on the fact that Commander Peary had a single lone negro with him when he reached the north pole. Scott declared that he would have 16 men with him on the final dash, including the scientists of the party.

So well provisioned is the Scott expedition that it would not be necessary for him to abandon the attempt in event that the first dash did not meet with success. He could return to the base of supplies, rest during the "off season" and return to the task refreshed during the next six months.

"In fact, we shall jolly well stop there until the thing is done," said Capt. Scott just before he cut loose from civilization.

Capt. Scott is a veteran explorer, having attained great success on his memorable invasion of the Antarctic in 1900-4, when he reached the then "farthest south," getting to latitude 82 degrees 16 minutes 33 seconds south, or within 530 miles of the pole. Shackleton's expedition of 1909 was the only one that has surpassed this.

Amundsen's First Trip

The Norwegian, Capt. Amundsen, is experiencing his first visit to the Antarctic. His previous fame was achieved on the other end of the world—the north. One of his greatest accomplishments was the negotiation of the great northwest passage. Capt. Amundsen's ship, the "Fram," is also at New Zealand, "standing hard by," ready to take her skipper aboard when he returns from the frozen Antarctic.

Had Amundsen and Scott departed only a few months sooner they would be in ignorance of the fact that the other pole has been discovered. However, they received the news just shortly before cutting loose from civilization, and both declared that the knowledge would act as an incentive to greater effort. In event that one of them has succeeded, there does not remain a single extremity of the earth that has not been explored by civilized man.

In some ways the conquest of the south pole is easier and in some ways harder than that of the north pole. The north polar journey was made over seal, that to the south pole is over land, and, therefore, the southern explorers are not subjected to the open leads, the sudden dangers of opening ice, or the heart breaking labor which made it necessary to travel six miles in order to cover one mile of distance. The southern journey is on solid ground and straight ahead.

Icy Mountains

But the Antarctic continent is mountainous, and a "dash" over ice covered mountains presents difficulties not met in the travel over an ice covered ocean. The chief difficulty, however, is the terrific cold, the icy wind, and the inconceivable blizzards that result from the mountainous formation of the Antarctic continent. In the north, while it never becomes really mild, yet there are moderations of temperature. In the south the deadliest cold prevails in the height of summer.

In the far south there are no Esquimaux; no kind of man could make his habitat there. But in the dim and distant past, ages ago, according to the theories of scientists some race of human beings populated the continent. If their surmise is correct, the discovery of the south pole may prove of greater importance to science than that of the north, because of new facts that may eventually be shed on the evolution of mankind in event that relics of these mythical prehistoric men can be found by the scientists accompanying the expeditions.

AUTO LINE, MORENCI OVER TO CLIFTON

New Bank at Morenci Is Going Up—Shannon Store Man Resigns.

Clifton, Ariz., Feb. 20.—Parties are in Clifton this week for the purpose of operating an automobile stage line between this place and Morenci. Several tests have been made over the long steep hill betwen the camps and in a short time the regular auto stage will be an assured fact.

The work on the First National bank at Morenci is progressing rapidly. Several loads of cement blocks are on the ground and will be put in place at once, as the foundation is already completed. Jim Averill, a Clifton contractor, with a force of carpenters, is on the job and has the woodwork well under way. When completed this will be one of the handsomest and most substantial buildings in the Hill city. The concern is backed by the most prominent men in the district and its future prosperity is assured.

Ernest Frye, an old time mining man of the district, is in Clifton from Metcalf.

George Gilliard of the famous Gilliard Hot springs, a few miles south of Clifton, is a county seat visitor.

Dr. Goodrich, chief physician of the A. C. hospital at Morenci, and his wife are Clifton visitors.

Garcia & Norte, the Chase creek furniture dealers, have put on the route a handsome new delivery wagon.

M. H. Kane, who has for several years been in charge of the Shannon stores, has resigned and the position will be in the future be filled by F. A. Sanders, for the past year county auditor.

Mr. Kane has been one of the most respected citizens of Clifton and in the recent election was chosen as Greenlee's county's representative to congress.

John Smith, proprietor of the Bank saloon, has been spending several days in El Paso on business.

A. N. Terry, of Morenci, who has been appointed clerk of the new board of supervisors, has moved his family to the county seat.

For the past several days Clifton has been dressed up in honor of the admission of Arizona to the union. Every business house in the town is gaily decorated in the national colors and the residence sections are not far behind.

A. T. Thomson, traffic manager of the Arizona & New Mexico railway, is in El Paso this week on business for the road.

Ed M. Stansell, sanitary inspector at Morenci, is a Clifton visitor.

The local lodge of Eagles held an initiation and smoker which was attended by a large crowd. Two candidates from Morenci were introduced into the mysteries of the order.

The women of the Catholic guild gave an enchilada supper and dance at the armory building, which was attended by a large crowd and a neat sum was realized.

Constable Gid Thompson, of Morenci, was a county seat visitor.

The new sheriff of Greenlee county has made public his appointments as the deputies for the various precincts. They are as follows: Under sheriff, J. F. Nicolls, of Clifton; jailors, John Shaw and Charles Keppler, of Clifton; Morenci, R. W. Chamberlain and Albert Mungula; Metcalf, King Sloan; Duncan, Charles Sands.

Plans for the fall encampment of the Arizona National Guard have been made. The commissioned and noncommissioned officers will spend a week in May at Prescott for instructions perfecting them in their several offices. In the fall the troops will assemble at Atascadero, Cal., and at that time there will be a naval and land attack upon San Francisco. The Arizona troops are awaiting eagerly the date for the annual encampment. Col. Tuthill will in the near future visit Clifton for the reorganization of the old company at this place which went out of commission some months ago.

Sheriff English has returned from Los Angeles and brought with him a Mexican, Cerciano Guzman, sheriff English went to Los Angeles for the purpose of locating the Mexican and after a short time caught the man on the street without difficulty. The man is charged with robbery and attempted murder at Morenci last January.

The pile driver on the east side of the Frisco river is busy night and day driving the huge piling for the retaining wall on that side of the river. Two nine hour shifts are working every day, the day shift being in charge of Tom Robinson and the night shift in charge of "Pat" Patterson.

WORRELL GRANTED BAIL OF $5000

Big Spring Country Gets a Good, Soaking Rain.

Big Spring, Tex., Feb. 20.—Habeas corpus proceedings in the case of Frank Worrell, charged with murder, were held at Colorado before district judge J. L. Shepherd, and the defendant was granted bail in the sum of $5000.

A fine, soaking rain has fallen over the Big Spring country.

Charles E. Mercer and Miss Lilly Mauldin were married at Colorado.

The regular spring term of district court is in session.

The usual big acreage of watermelons in the Big Spring country will be planted this year.

Lincoln's birthday was generally observed here by the closing of the banks and postoffice.

A big auto garage is being opened up on South Main street.

Mrs. T. S. Currie has received the news of the death of her mother at Poynette, Wis.

Mrs. T. H. Johnson has been called to Ft. Worth by the serious illness of her daughter.

J. M. McCullough and family are new arrivals from Hagerman, N. M. Mr. McCullough recently bought farm property near here.

Charles Jones, of Aledo, has purchased an interest in the Union Mercantile company's store at this point.

C. E. Talbot is building a new home in McDowell's Heights.

PLAINVIEW ELKS INITIATE AND HAVE ANNUAL BANQUET

Plainview, Tex., Feb. 20.—Immediately preceding the annual banquet of Plainview lodge No. 1175 B. P. O. E. the following candidates were initiated Mark Merrill and E. H. Hurt of Lubbock; C. C. Cheborneo of Crosbyton, and A. H. Thompson and Z. E. Black of Plainview. At the banquet covers were laid for 150. Courses and discourse were interminglied until midnight, toastmaster E. H. Perry, Dr. J. H. Anderson, Judge L. S. Kinder, mayor Jas. R. DeLay and O. M. Unger, of Plainview, and H. H. Herrington, of Amarillo, and C. C. Cherborneo of Crosbyton making addresses or responding to toasts. Mrs. I. A. Knight read a paper entitled, "Our Interest in the Elks' Home."

DEVELOPMENT

ARTESIA RAISES FACTORY FUNDS

Movement Started For a Sugar Plant and Canning Factory.

Artesia, N. M., Feb. 20.—A large and enthusiastic gathering was held here to consider the proposition of experimenting this year in the raising of sugar beets. Delegations from Hagerman, Lake Arthur, Cottonwood and Dutch Flats were present. W. F. Schwartz, chairman of the committee appointed by the Commercial club, had charge of the meeting and told of the efforts of the committee towards raising the necessary $5000 to conduct the experiments under the direction of men skilled in beet raising. The committee had raised about half of the needed amount.

L. B. Wilhelm, of Boulder, Colo., who has been successful in installing six beet factories in Colorado, told what had been done in Colorado and the necessity of having plenty of data to induce capital to build factories. Attorney Robertson told what the neighboring towns were doing on the proposition. C. A. Sipple enthused his hearers over the benefits that would accrue from the experiments. Subscription papers were passed around and enough was subscribed to raise the amount to nearly $4000.

A committee of five was appointed, with C. A. Sipple chairman, to raise the balance of the $5000, which will be done in the next few days. Sugar beets will be planted on 40 small tracts from Hagerman to Lakewood in various soils to ascertain which is the best for their culture. Beet factory men will insist a factory in the valley as soon as they are convinced that beets can be successfully raised here.

A meeting was held at the Commercial club to hear a report of the committee on a canning factory. The committee reported in favor of the project and a soliciting committee consisting of J. B. Enfield, S. W. Gilbert and A. M. Thomas was appointed to secure subscriptions of stock for the canning factory. In three days the committee raised $3000 and the members state they will have no trouble in getting sufficient to make it $10,000. The committee had a conference with division superintendent McMahon of the Santa Fe, who agreed to report favorably on extending a switch so as to reach the site selected for the factory.

LIME FACTORIES PAY ON THE WEST COAST

Another Factory Is Planned For La Sabana, Near Acapulco.

Guaymas, Sonora, Mexico, Feb. 20.—The manufacture of lime powder from Spanish limes is becoming an important one in this portion of Mexico and another factory is planed for this district.

There is a factory at La Sabana, about 10 miles from Acapulco, in the state of Guerrero, which consumes on an average 50 cases of limes per day. Lime powder is used largely in the preparation of various drinks.

In addition to the manufacture of lime powder, between 7000 and 9000 cases of limes are imported into San Francisco each year.

The owners of the industry at La Sabana are now considering the advisability of establishing another factory somewhere on the west coast, but they wish to be assured that they would be supplied with from 50 to 150 cases of limes per day.

At the present time limes grow wild in great abundance all along the west coast of Mexico, especially in the thick forests of the river valleys. No attempt has ever been made to cultivate the trees, but as the fruit is absolutely free from disease, American farmers may take up the question of cultivating the lime tree, for the size of the fruit would be greatly increased by proper cultivation, and this could be made a very profitable enterprise.

J. J. Vignolo and A. Chatam, of Turlock, Cal., will arrive in Guaymas from Hermosillo, and will proceed at once with J. P. Burford to the Yaqui valley to investigate with a view to taking over a 4000-acre tract of land that was formerly owned by Sra Vd. Margarita Crans, but is now held by Mr. Burford. Mr. Vignolo is a retired capitalist, and Mr. Chatam is a large land and stock owner. These are both very much impressed with the west coast of Mexico. Mr. Vignolo has lately returned from Europe and South America, and states that he finds far greater and more attractive opportunities here than any place that he visited in South America.

CONCRETE DITCHES USED IN IRRIGATING

Work of Putting 3000 Acres Under Project Starts at Roswell.

Roswell, N. M., Feb. 20.—Kingsbury Sanborn, the California irrigation expert, is here from Riverside, laying off a water distribution system on the 3000-acre tract of the Pecos Valley Investment company. Open concrete ditches or concrete tile will be used on all main ditches to prevent loss by seepage. Mr. Sanborn says the Pecos valley of New Mexico has the advantage of most portions of California in pumping water for irrigation because the water is so much nearer the surface here.

Since his recent visit to California, ex-governor H. J. Hagerman is preparing to use the border system of irrigation, largely used in that state, in watering the 60 acres of young apple orchard he is setting out just east of South Spring station.

Are you getting full value for your money, and are you doing right when buying a gasoline or distillate engine, if you do not carefully investigate the Witte Junior line, for sale by H. A. Carpenter & Brother, of El Paso? Made in 1½, 2, 4, 6, 8 and 11 H. P. Cheap, efficient and absolutely guaranteed for five years.

DEVELOPMENT

TEST SUCCESSFUL; WAX FACTORY SURE

Work Will Start on Plant at Alpine Without Delay.

Alpine, Tex., Feb. 20.—The well at the site of the proposed wax, soap and paper factory was thoroughly tested for one hour and yielded the capacity of the machinery without diminishing the apparent supply. Manager Pacius of the company announces that he is satisfied with the test, and will at once begin factory construction. Nearly a thousand tons of raw material is now cut in the fields awaiting shipment.

Manager Durrett of the Pecos and Rio Grande Telephone company, has signified to the commissioners of Brewster county the intention of the company to comply with the requirements of the court in reference to removing poles to a proper distance from walls and houses. Also the company agrees to furnish telephones for the use of the county officers at the courthouse.

PAJARITA PROJECT IS VISITED BY EXPERTS

Tucumcari, N. M., Feb. 20.—C. B. Schmidt, immigration inspector of the Rock Island railway system, with five capitalists from Michigan, has arrived to inspect the proposed Pajarita irrigation plans which have been under consideration for several months. Mr. Schmidt, who has been over the ground, is enthusiastic over the prospects for irrigation, and has been the chief agent in calling the attention of capital to the scheme. The work of preliminary surveys has about been completed, it is said, and a water gage has been in position at the mouth of the canyon, where the site of the dam is proposed, having been placed there by state agents early in the winter. The irrigation scheme, which is to reclaim in the neighborhood of 25,000 acres of land, has been gradually drawing toward a certainty ever since its first inception, and now appears assured.

PLAINS COUNTRY LANDS ARE IN LIVELY DEMAND

Plainview, Texas, Feb. 20.—A large amount of land is turning in the Plainview country and local real estate men predict that this will be the best year in the history of their business. L. O. Wilson and W. J. Dunaway, of Plainview, and Judge Barber of Dimmitt have sold each a section of land located northwest of Plainview, the former two sections going to Wisconsin parties and the latter to a man from Ohio. A quarter section of land located near the southern border of Hale county has been sold to a Wisconsin party.

One local company has sold 240 acres, situated six miles east of Plainview, to a Mr. Shrader, of Fort Collins, Colo., and 130 acres adjoining to a Mr. Sloan, of the same town.

W. J. Shanley and Harry Sultan, of Globe, are in El Paso. They are principal members of the Shanley Cattle company, and Mr. Sultan is also a merchant of Globe.

"Just Say" HORLICK'S It Means Original and Genuine MALTED MILK The Food-drink for All Ages.

More healthful than Tea or Coffee. Agrees with the weakest digestion. Delicious, invigorating and nutritious. Rich milk, malted grain, powder form.

A quick lunch prepared in a minute. Take no substitute. Ask for HORLICK'S.

Others are imitations.

Indigestion

Causes Dizziness, Nervousness, Sick Headache, Sleeplessness

MI-O-NA STOMACH TABLETS BANISH ALL MISERY, GAS AND SOURNESS

You know that most of the ailments named above come from an out of order stomach; of course you do.

When your food reaches the stomach it should digest and furnish nutritious matter to the blood.

If it doesn't digest, but lays heavily on your stomach, it has started to ferment.

CAN'T SLEEP

When it ferments it sets loose in the stomach poisonous gases which irritate the great pneumogastric nerve that leads directly to the brain from the stomach.

That irritation causes heartburn, dizziness, nightsweats, nervousness, and other ailments.

MI-O-NA will end all stomach misery or money back. A large box costs only 50 cents and is sold by Kelly & Pollard and druggists everywhere.

NO MORE DANDRUFF, FALLING HAIR OR ITCHY SCALP IF YOU DO THIS

Your hair looks soft, fluffy, lustrous and abundant after a Danderine hair cleanse

Immediate?—Yes. Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

A delightful surprise awaits, particularly those who have been careless, whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Try as you will, you cannot find any dandruff or a loose or falling hair and your scalp will never itch, but what will please you most will be after a few weeks' use of Danderine, when you will actually see new hair—fine and downy at first—yes—but really new hair sprouting all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

A REGAL HEAD

How often do we hear or see this expression used in describing a beautiful woman!

Denude that head of its hair and instead of a queenly, royal bearing we have a fright. The hair makes all the difference. To have that glorious abundance of radiant hair which always crowns "a regal head," one should use Newbro's Herpicide.

Herpicide represents the last word in scientific hair culture. It destroys the dandruff germ, checks falling hair and corrects generally, diseases of the hair and scalp.

The positive results and its delicate but refreshing odor recommends Newbro's Herpicide to ladies of refinement everywhere.

Send 10c in postage for sample bottle of Herpicide and booklet to The Herpicide Co., Dept. E, Detroit, Mich.

One dollar size bottle sold and guaranteed by all druggists.

Applications made by the best barbers and hair dressers.

Kelly & Pollard, Special Agents.

Corns Cured

Try "GETS-IT"—The GUARANTEED Cure.

Feet On Fire?

The name of this big surprise is "GETS-IT," because it gets it, or your money back. You don't have to wrap your toes in bandages. There are no plasters, no salves. What is more, "GETS-IT" will never, absolutely can't, hurt or make raw the true flesh as many other corn "things" do. It won't, can't hurt or injure the flesh. Apply in two seconds, then good-bye corn. For warts, bunions and callouses, too.

Your druggist sells "GETS-IT," 25 cents per bottle, or direct if you wish, from R. Lawrence & Co., Chicago, Ill.

She Had Consumption Was Dying; Now Well

Eckman's Alterative is being used with success in the treatment of Tuberculosis. Persons who have taken it improved, gained weight, exhausting night sweats stopped, fever diminished, and many recovered. If you are interested to know more about it, we will put you in touch with some who are now well. You can investigate and judge for yourself. Read of Mrs. Govert's recovery:

Griffith, Ind.

"Gentlemen: Thinking that perhaps a short history of the remarkable cure of my mother-in-law (Mrs. Anna Govert) might benefit some other sufferers, I hereby give the following testimonial: About September 10, 1908, she was taken sick with Catarrhal Pneumonia, and continually grew worse, requiring a trained nurse. Night sweats were so bad that it was necessary to change her clothing once or twice every night; her cough increased and got so bad that everybody expected that she would not live much longer. The trained nurse (Miss Anna Trinen) informed me that she had Tuberculosis and nothing could be done for her. In January, when Rev. Wm. Berg, of St. Michael's church, at Shereville, Ind., prepared for her death, he recommended that I get some Eckman's Alterative, and see if it would not give her some relief. I then requested the attending physician to give his diagnosis and he informed me that she had Consumption and was beyond all medical aid. When I asked if he thought that it was useless to try the Alterative, he replied that no physician could help her any and I could suit myself about it. So I immediately had Rev. Wm. Berg to send for a bottle. Practically without hope for recovery, I insisted that she try the Alterative, which she did. At the end of the first week's treatment, she got so bad that she refused to take any more of it, but the doctor advised her to keep on taking it, as it was the only thing that might help her. I am glad to say now that she kept on and soon began to improve. Now, she works as hard as ever, weighs twenty pounds heavier than she ever did before she took sick, and is in good health. She frankly says she owes her life and health to Eckman's Alterative. We keep it on hand at all times and recommend it highly.

"(Signed Affidavit)

"JOS. GRIMMER."

Eckman's Alterative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by Kelly & Pollard, Knoblauch Drug Co., People's Drug Store, and other leading druggists. Ask for booklet of cured cases and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.

You can easily sell it. Call Bell 115, Auto 1115, tell the girl what it is and The Herald will sell it. No bother, no formality.
