Internal Revenue Collector Starts Fight on Druggists Who Offend.

Austin, Texas, Sept. 9.—Federal permits to sell intoxicating liquors, heretofore issued by the internal revenue collector's office here to druggists for non-beverage purposes, will be cancelled in every instance where it is found that the holders of the permits are evading the law, announced A. S. Walker, collector of internal revenue.

Collector Walker said he was proceeding under the war-time prohibition law and regulations issued thereunder by the United States treasury department. In this connection he has already cancelled the permits of two drug stores at Houston, one at Galveston, one at Victoria, one at Humble and one at Cuero.

The war-time prohibition act authorizes the issuance of permits to druggists to sell whisky on prescription for medical purposes only and collector Walker said he has just received the reports from his deputies at the places in which the permits were canceled, showing that these drug stores are saloons disguised as drug stores. He does not propose to cancel the permits of any drug store which keeps within the bounds of the law.

Money Is Placed In Temple Fund By Labor Unions

Profits From Labor Day Ball Put in Permanent Building Fund.

Net profits from the Labor day ball, totaling $527.75, were placed in the fund for the erection of a labor temple by the Central Labor union Monday night, Henry M. Walker, chairman of the ball committee, read a detailed report.

The report of labor day parade and other expenses showed there would be a deficiency. Receipts were $375 and expenditures to date $217.50, with some bills unpaid.

T. C. Jennings, Texas labor commissioner, and Walter Webster, organizer of the International Association of Machinists, attended the meeting and both made talks. The latter is from Denver. He came here from Beaumont, Texas, to organize a federation of the machinists, boiler makers, blacksmiths, car men, sheet metal workers, coppersmiths and electricians on the El Paso and Southwestern railroad.

TWO MURDER CASES TO BE TRIED SOON IN DISTRICT COURT

The trials of Noel Longuemare and Jose Carrales, charged with murder, are scheduled for early trial in the 34th district court. Both cases will probably be disposed of Wednesday.

Noel Longuemare is charged with the murder of G. Helps, while Jose Carroles will be tried on the charge of the murder of Juan Moreno. The defendants in both cases will claim self defense, it is understood.

WILL ENFORCE SCHOOL LAWS

Women's Committee to See That Children Under 15 Attend.

Children under the age of 15, who have not obtained a permit allowing them to work must attend school, announced Mrs. L. L. Robinson, chairman of the woman's committee for the enforcement of the child and woman labor laws of Texas, Monday afternoon at a meeting of the committee in the Y. W. C. A. building.

According to Mrs. Robinson, a number of children not exempt from the provisions of the law are not in school. An effort will be made by the woman's committee to place these children in school and to see that they attend regularly. Only those children under 15, who have obtained permits from the county authorities, approved by the woman's committee on child labor in El Paso, will be allowed to work.

Urges Better Sanitation.

Present at the meeting Monday were T. C. Jennings, state commissioner of labor; Mrs. Alma Hartlett, field worker for the state labor bureau, and Thomas J. Plunkett, deputy commissioner with headquarters in El Paso. Mr. Jennings briefly reviewed the labor situation in Texas, emphasizing the need of better sanitary conditions for women and children in industry.

Mr. Plunkett analyzed the work done in El Paso and reported a general improvement in working conditions for women and children here. He commented upon the value of publicity in connection with the improved treatment of washwomen and other similar woman labor in El Paso.

Compliments Women.

Mrs. Martlett complimented the women of El Paso for the good work done in enforcing the labor laws here and said that there remained a great deal more work to do. She reported that $240 in overtime had been collected during the last week from violators of the woman's labor law and this amount was distributed among the women who had worked extra hours. She also reported that one employer in El Paso had been violating the law and that he refused to comply with it, declaring that he would fight the law in the courts.

The law provided that no female employe be employed more than 54 hours a week or more than nine hours a day except in certain exempted industries and classes of employment, such as cotton mills and laundries.

LABOR WORKER HERE ORGANIZING FEDERATION

Walter Webster, of Denver, organizer for the International association of machinists, is in El Paso organizing a federation which will probably be completed today. The crafts represented are the machinists, boilermakers, blacksmiths, carmen, sheet metal workers, coppersmiths and electricians.

SUFFERED WITH RHEUMATISM, CATARRH AND STOMACH TROUBLE

"I think 'Number 40 For The Blood' as a blood purifier has no equal. When I began to take 'Number 40' I was in very poor health as I had Rheumatism, Catarrh, Stomach Trouble, Lead Poisoning, and an itch that I had tried almost every known remedy to relieve. I have taken six bottles of 'Number 40' and am on a fast road to recovery. I owe my life to it as I used to weigh 127 pounds and now weigh 145, my usual weight. I could write more but this should be enough to convince the most skeptical, and you are at liberty to use this letter anyway you desire." Geo. Klinker, Lima, Ohio.

The ingredients in "Number 40 For The Blood" are set down in the U. S. Dispensatory and other reliable medical books as follows: "Employed in diseases of the glandular system, in blood poison, constipation, stomach and liver troubles, chronic rheumatism, catarrh, sores, ulcers, skin eruptions, mercurial and lead poisoning. Under its use nodes, tumors, scrofulous swellings that have withstood all other treatment disappear as if by magic."

Your Federal Taxes

Q. Do we have to include the value of any farm products that we trade for groceries and supplies, etc., on our income tax report?

A. Yes, the law says in this respect, "sold or traded for cash or the equivalent thereof." It would be the same if you had sold the farm products and bought the goods in question with the cash received.

Q. Our barn burned down. It cost us $1500 to build and the insurance on it was only $600. Can we claim the difference as a loss?

A. Yes, if you have not charged off any depreciation on the cost of the barn, you may claim a loss of $900, providing it was a total loss and you had no salvage.

Q. Are copies of inventories required by the department, to be filed with the return?

A. No; but it should be understood by all taxpayers that all original inventory sheets and all papers which would have any bearing on a claim for loss in inventory should be retained for a period of not less than five years.

J. A. Carvel, income and excess profit tax expert, room 504-507 Trust building, will answer any questions sent to The Herald.

"Nuxated Iron Put Added Power Behind My Punch"

Says Jack Dempsey—Tiger Of The Ring

HEAVYWEIGHT CHAMPION OF THE WORLD

Tells A Secret of the Training Which Helped Get Him Into Such Superb Condition That He Was Able to Whip the Mighty Jess Willard and Prove Himself

Jack Kearns, Manager for Dempsey, Jimmy DeForest, Chief Trainer, and Others Give Opinions — How Nuxated Iron Helps Strengthen The Nerves, Restore Wasted Tissue and Build RED BLOOD, STRENGTH and ENDURANCE.

THE SUPERMAN OF THE AGE

Since his overwhelming victory at Toledo when he wrested the World's championship title from the Goliath-like Jess Willard, Jack Dempsey, the modern David and Miracle Man of the Fistic World—Jack Kearns, his manager, and Jimmy De Forest, his chief trainer, have been besieged with inquiries as to the methods employed in rounding him into such superb condition. That Jack Dempsey used Nuxated Iron as a part of the training which produced such marvelous physical development as to make him a veritable human dynamo, should prove conclusively the paramount value he attached to this master strength and blood builder, and he explains below why he now recommends it to others.

Just as when a man's life is at stake, physicians seek only the tried and proven treatment, so when the World's Championship hung in the balance, Dempsey's trainers did not stop to experiment with metallic iron preparations—Nux and Iron—or other products of questionable value, but they insisted upon having only genuine Nuxated Iron, which they felt could be absolutely relied upon to help build red blood, power and stamina.

In connection with this feature of his training regarding which Dempsey himself makes a statement below, Jimmy De Forest, the Champion's Chief Trainer, is quoted as saying: "I rate Jack Dempsey as the greatest heavyweight of all times. Unlike Willard, he needed advice and counsel during his training from those whom he trusted." He further stated: "For seven weeks previous to July 4th I was in sole charge of the training and preparing of Jack Dempsey for his fight with Jess Willard. During the training period Dempsey was regularly given by me Nuxated Iron and I believe it contributed to his success."

The importance that the Champion himself places upon the part Nuxated Iron played in winning for him the highest laurels known in the athletic world is clearly shown in the following statement made by Jack Dempsey at his training quarters in Toledo, the scene of the big battle when he said: "After commencing the use of Nuxated Iron during my training for the big fight with Jess Willard, I soon noticed that I could stand harder strains with less fatigue than before, and I realized that I had found a tonic and blood builder which played an important part in getting me into fine condition. Formerly I had relied solely upon strength-building foods and outdoor exercise to keep my blood rich in red corpuscles, but with the World's Championship at stake, I felt that I should leave nothing undone that might help me to win. I was advised of the great value of Nuxated Iron for building up the blood, strengthening the nerves and aiding in keeping the body fit, and I am firmly convinced that its use has helped to wonderfully increase my stamina and endurance. Nuxated Iron put added power behind my punch and helped me to accomplish what I did at Toledo. From the results in my own case where the possession of super-endurance is necessary, I feel that I am in a position to strongly recommend Nuxated Iron to every man and woman who wants to build greater strength, energy and power."

Manager Jack Kearns who closely watched from day to day the progress of Dempsey's training in which Nuxated Iron played a part and who predicted Dempsey's victory over Willard.

Jimmy DeForest, the Champion's Chief Trainer, tells here why he believes the use of Nuxated Iron by Dempsey contributed to his success.

In connection with the foregoing statement made by Jack Dempsey, Dr. James Francis Sullivan, formerly physician at Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, said: "The methods of training adopted by Willard and Dempsey may have had a great deal to do with the outcome of this fight. According to reports Dempsey placed himself unreservedly in the hands of expert trainers and competent physicians and heeded their advice. In my opinion whoever made the suggestion that Nuxated Iron should play a part in getting Dempsey into condition is to be commended for his foresight. No man without plenty of rich, red blood filled with health-giving and strength-building iron could withstand the terrific onslaughts of a giant like Willard. It should appear to every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron, how much more important it is for the average man or woman in see that there is no lack of iron in the blood. There is today a surprising number of persons who suffer from iron deficiency. Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron."

Dr. John Van Horn, formerly Medical Inspector and Clinical Physician on the Board of Health of the City of New York, says: "Strong, healthy man and women with plenty of iron in their blood are the ones who go through life with a smile, self-reliant and fearless, and their dynamic power and energy make them virtually masters of their own destinies. It is surprising how many people who do not get along in life are in reality suffering from iron deficiency and do not know it. To supply this lack of iron and help build stronger, healthier men and women better able physically to meet the problems of everyday life, I believe that physicians should, at every opportunity, prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."

MANUFACTURERS NOTE: Nuxated Iron which has been used by Jack Dempsey and which is prescribed and recommended above by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by Kelly & Pollard, Owl Drug Co. (A. E. Ryan,) and other druggists.—Adv.

QUIT BUSINESS SALE

A Few Words to the Man and Woman to Whom a Dollar Means a Hundred Cents

—In these troublesome times when a dollar has less than half the purchasing power that it did a couple of years ago, when your income and outgo are running a neck and neck race and your daily necessities are advancing by leaps and bounds to such a degree that you are almost driven to despair—An opportunity such as is offered by our QUIT BUSINESS SALE is surely a Godsend.

IT IS NOT AN ORDINARY SALE BY ANY MEANS—behind it all is a reason and a purpose—a mission to be accomplished that requires drastic measures, and these have been taken. It spells D-O-L-L-A-R-S to YOU and if YOU fail to take advantage of it YOU alone are to blame.

Shoe selling such as our two stores have done in the few days that our sale has been going on, we doubt if ever has been seen in El Paso before, and as the days go by the crowds increase, which means but one thing—that the people realize that we mean business and the farther the news spreads the grater the crowds.

BEAR THIS IN MIND—The shoes that we carry are as good as any to be found in El Paso. Our regular customers know this, and have been saving from $2.00 to $4.00 on their high grade shoes as long as they have been dealing with us. We have followed the policy of making "the price the inducement" for the reason that our surroundings have not been in accordance with the handling of high grade merchandise. And as the reductions are from OUR regular prices, you can readily see the opportunities.

IF YOU VALUE MONEY—IF YOU ARE NOT TOO PROUD TO SAVE A DOLLAR—LET ECONOMY BE YOUR WATCHWORD—FOR THIS SALE IS FOR YOU.
