

Molly's Star

Molly's Star like a lantern, lights the way
As a woman, wife, mother, grandmother, sister,
daughter and a friend... Molly's lantern
always showed the way
And for those of us who got lost along the way,
Molly was a second mother... helping us
find the way
Be it your child or mine, or one of her own,
Molly always had a touch and a smile
that lights the way
She is the center of her family... Molly and Pete
always showed the way... with a pleasant
smile, a little food and a touch to send
you on your way
Molly now holds her lantern high to guide
and protect her family through the
paths that lie ahead
And Now...
Molly's father and brother reach out and
hold her hands... to show her the way
...to her place among the stars
Molly's Star like a lantern, lights the way
...for Now and Always
