

RATE BILL COMES UP AGAIN TODAY

NEW AMENDMENT IS TO BE INTRODUCED

Strike in Coal Mines Attracts Attention of the Entire Country—Railway Commissioners to Meet

WASHINGTON, April 1.—The railroad rate bill will continue the present week to receive the attention of the senate to the exclusion of almost all other subjects. The bill will be taken up tomorrow, as soon as the routine business is disposed of, and Senator Long will introduce the amendment agreed on at the conference of friends of the bill with President Roosevelt last Saturday night. The amendment is to section 16 of the house bill and provides:

"That all orders of the commission except for the payment of money shall take effect within such reasonable time as shall be prescribed by the commission, and shall continue for such period of time not exceeding two years as shall be prescribed in the order of the commission, unless sooner set aside by the commission or suspended or set aside in a suit brought against the commission in the circuit court of the United States sitting as a court of equity for the district wherein any carrier plaintiff in said suit has its principal operating office, and jurisdiction is hereby conferred on the circuit court of the United States to determine in any such suit whether the order complained of was beyond the authority of the commission or in violation of the rights of the carrier secured by the constitution."

Many Will Support Amendment
Senators who took part in the conference believe that twenty-nine Republicans and the entire minority will support the amendment. Should the expectation of the friends of the bill be realized the vote upon the measure as a whole will be reached much earlier than was anticipated when the senate adjourned Friday evening.

Program for the Week
The program for the week in the house of representatives is rather short as to subjects but will be full as to legislative work. Motions to suspend the rules and pass bills on the calendar will be in order Monday. Suspension of the rules will be had without incident and there is always a full day's work to be done, as any minor measures which require but short consideration are disposed of under this order.

Reduce Working Hours
ALTOONA, Pa., April 1.—Orders have been issued by the Pennsylvania Railroad company reducing the hours of its 9000 shopmen from 55 to 25 hours a week because of the impending coal strike.

SIXTY-SIX CANDIDATES ARRESTED AT ODESSA
TOO LIBERAL TENDENCIES ARE DISPLAYED
Professor Ivan Zanevsky on Trial Before Senate Charged With Organizing Student Militia Which Defended the Jews

OREGON REACHES COAST PORT
Uncle Sam's Battleship to Undergo Repairs at Puget Sound Navy Yard

Postoffice Appropriation
Beginning Wednesday the postoffice appropriation bill will be the order of the day throughout the week. It is not anticipated that the measure can be disposed of in this time, but Chairman Overstreet, who will have charge of the bill on the floor, provides that general debate on the bill will be completed by the end of the week.

Strike in the coal fields of Northern France has assumed serious proportions and unless the government takes an active part in quelling the disturbances and bringing about an understanding between the mine owners

PEACE IN EUROPE IS NOW ASSURED

SUCH IS THE RESULT OF THE RECENT CONFERENCE

Neither France Nor Germany, However, Is Entirely Satisfied With Decision Reached at Algiers

PARIS, April 1.—Foreign Minister Bourgeois at an early date will address the chamber of deputies setting forth the government's view of the result of the conference on Moroccan reforms at Algiers.

The agreement is hailed with satisfaction by officials and by the public press, which was weary of the prolonged controversy and the disturbing possibilities of war.

The view in official quarters is that France secures a fair degree of success on the principal relating to the police and state bank.

Neither Entirely Satisfied
However, it is recognized that neither France nor Germany has secured all that was wanted. France's desire to have control of the police was partially realized in her being allowed to police the important Atlantic ports, including Mogador, which Germany was suspected as coveting and also with her ally, Spain, to police Tangier and Casablanca.

On the other hand, it is thought that Germany's desire to internationalize Morocco was partly realized, as the Franco-Spanish police is subordinated to an inspector who will report to the diplomatic corps.

Thus both countries in a measure were successful, but each is not safeguarded that neither will be able to claim a victory.

France's pacific penetration of Morocco, it is thought, is remotely postponed, as it is likewise to the cream of the "four big powers" in Africa. Aside from the details of the great achievement, the officials consider that the agreement between France and Germany assures the preservation of the peace of Europe.

Mitchell Goes to New York
INDIANAPOLIS, April 1.—President John Mitchell of the United Mine Workers left tonight for New York, where he will meet the miners' representatives on the joint subcommittee of the anthracite operators and miners in preparation for a meeting of that body tomorrow.

Officers Swept Aside
The officers were swept aside and roughly handled until they began to use their clubs and drove the groups of the disturbers upon the New Haven green. Quiet was not restored until a hotel proprietor had promised to bail out four students who had been arrested. One student was picked up unconscious after the fight and taken to the police station.

Good Omen Meets Philadelphia Girl at the Church Door After Wedding Ceremony
PHILADELPHIA, Pa., April 1.—A minute or two after Mary Waters and Michael Doherty had been married, and just as they stepped out of the Church of St. Thomas Aquinas, a white dove flew down from the belfry and alighted on the bride's shoulder.

Deaths of the Day
Jasper H. Lawman
PITTSBURG, April 1.—Jasper H. Lawman, an American portrait painter of some note, died at his home in this city today, aged 81 years.

Francis Harrington
NEW ORLEANS, April 1.—Brigadier General Francis Harrington of the United States marine corps, retired, died while on a visit to his son-in-law, Captain Hall, at the Algiers naval station here today.

Fear Frost at San Jose
SAN JOSE, April 1.—A spasmodic hail storm visited the city this afternoon. The temperature has fallen as

WORDS OF PRAISE WELL MERITED

BY A WELL KNOWN ARTICLE.

Of Queen's root, Prof. King says: "An alterative (blood purifier) unsurpassed by few if any other of the known alteratives. Most successful in skin and scrofulous affections; beneficial in bronchial affections; permanently cures bronchitis; relieves irritations; an important cough remedy; coughs of years' standing being cured; aids in blood-making and nutrition and may be taken without harm for long periods."

Who can doubt the efficacy of such a compound, when scientifically made up, as in Dr. Pierce's Golden Medical Discovery? Who can doubt that it is a most effective remedy for the several diseases for which its ingredients are so highly recommended by the foremost writers on *Materia Medica*?

It is in the cure of the more chronic or lingering, persistent, and obstinate cases of bronchial, laryngeal and lung affections, attended by hoarseness and severe cough, which if neglected, or badly treated would generally have run into consumption, that "Golden Medical Discovery" has won the highest praise from all who have observed its marvelous control over these and kindred affections. It is no cheap compound made-up of trashy ingredients for free distribution, that curious people may experiment upon themselves as with the many fake nostrums so commonly sent out as "trial bottles."

It is a forty-year record, embracing many thousands of cures, behind it, is sold at a reasonable price and may be found in all drug and medicine stores in this and many foreign countries.

It will be seen from the above brief extracts how well "Golden Medical Discovery" is adapted for the cure of all blood diseases, as, scrofulous and skin affections, eruptions, blotches, pimples and kindred ailments; also that it is equally good in all Catarrhal affections no matter where seated, and for all cases of indigestion, or dyspepsia, torpid liver, or biliousness and as a tonic and invigorator in all manner of weakness, and in nervous debility and prostration the above extracts amply show.

Much further information as to the properties and uses of "Golden Medical Discovery" and Dr. Pierce's Favorite Prescription for weak women, will be found in a little booklet of extracts from standard medical books, which will be mailed free to any address on request, by letter or postal card, sent to Dr. R. V. Pierce, Buffalo, N. Y.

All the several ingredients of Dr. Pierce's medicines will be found, from the reading of this little booklet, to have the strongest possible professional endorsements and recommendations for the cure of all the diseases for which these medicines are recommended. No other medicines for like purposes have any such endorsement. They are non-alcoholic, non-secret, safe and reliable.

SWEETWATER IS OVERFLOWING
BIG RESERVOIR AT SAN DIEGO FILLED TO THE BRIM
For the First Time in Eleven Years Water Flows Over the Great Ma. Foot Deep

SAN DIEGO, April 1.—Sweetwater reservoir was the mecca which called out several trainloads of excursionists this afternoon and the sight was worth the trip.

For the first time in eleven years the reservoir back of the great masonry dam is full to the running over point and the falls formed by the water passing over the emergency pier in the center and falling nearly 100 feet to the valley below forms a fine picture.

Back of the dam the water is over seventy-five feet deep and there is stored 7,000,000,000 gallons of the irrigating fluid for the orange and lemon orchards under its distributing system. All of the reservoirs of the county are filled with the exception of the largest at lower Otay, which does not contain as much as the Sweetwater but when filled would contain twice as much. The total amount of water in storage tonight is 20,500,000,000 gallons.

Sacramento River Recedes
By Associated Press.
COLUSA, April 1.—Clear, cold weather today with a brisk north wind indicates the storm is over for the present. The Sacramento river reached high water mark at 6 o'clock this evening, 28 feet above station, and at 8 o'clock seemed to be stationary at this measurement. Princeton, fifteen miles above Colusa, reports the river receding there at 5 p. m. This should cause the river to commence to fall here by midnight.

All levees on the Colusa side are intact and should be able to hold as conditions now are. The worst danger to levees now is from gopher holes, but the levees are patrolled all along and each patrolman has only a short distance to cover. These holes can be repaired before the levee is endangered.

Another Road for Mexico
Los Angeles Capitalist Said to Be Interested in Big Undertaking
Special to The Herald.
MEXICO, April 1.—A syndicate of American and Mexican capitalists have taken the preliminary steps toward building a railroad from Culiacan to the port of San Blas, a distance of about 400 miles.

It will run by way of Durango, where it will join with the Mexican International railway.
Thomas W. Evans of Los Angeles, David Harrison of San Francisco, Felipe Bendon of Durango and Eduardo Zertuche of Culiacan are among those interested.

MINERS WILL GET INCREASE

(Continued from Page One.)

coal region will work tomorrow as usual. The miners are taking no interest in the strike situation in other locations. In the other hand, the men are looking forward to good work which will result from the trouble in other fields.

ILLINOIS MINERS STRIKE
Estimated That Fifty Thousand Have Already Walked Out
By Associated Press.
SPRINGFIELD, Ill., April 1.—Tomorrow all coal mines in the state will be idle, not only because of the strike, but because the men on that day will celebrate the eight-hour work day obtained April 1, 1898.

About 50,000 men are on strike in Illinois.

Students Sweep Policemen Aside
New Haven Authorities Order Investigation—Officers Finally Restore Order by the Use of Clubs

NEW HAVEN, Conn., April 1.—A police inquiry is being made into the cause of a lively disturbance in which many scores of Yale undergraduates are thought to have taken part.

Of late there has been a recrudescence of what are termed locally "Town and Down" fights on the streets, but none has been so serious as tonight, when police interference until today.

Upon the outbreak of the trouble a squad of officers rushed out of police headquarters to disperse the crowd, which numbered several hundred men, boys and women.

The officers were swept aside and roughly handled until they began to use their clubs and drove the groups of the disturbers upon the New Haven green. Quiet was not restored until a hotel proprietor had promised to bail out four students who had been arrested. One student was picked up unconscious after the fight and taken to the police station.

The police are not certain whether the trouble was between student factions that had been turned out of nearby hotels, or an attempt of students to start a crowd of townspeople who had been at a social gathering in a public hall. Several women caught in the scrimmage were badly jostled.

Dove Eats From Bride's Hat
Good Omen Meets Philadelphia Girl at the Church Door After Wedding Ceremony
Special to The Herald.
PHILADELPHIA, Pa., April 1.—A minute or two after Mary Waters and Michael Doherty had been married, and just as they stepped out of the Church of St. Thomas Aquinas, a white dove flew down from the belfry and alighted on the bride's shoulder.

It was such a momentarily favorable omen—not a lucky—that the bride threw her hat for a few minutes and then flew back to the belfry. Doubtless she was thinking of nothing more poetic than getting a square meal, but many a bride would pay \$1000 in gold for such a good luck sign at the church door.
