FOR OVER FIFTY YEARS

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

OR WORDS TO THAT EFFECT.

The text was "I am the bread of life." "Did my little girl know the golden text at Sabbath school today?" asked the up-town mother. "Yeth, ma'am," replied the little one. "I said it with the other little girls and boys." "And what was it?" "I am the loaf of bread," answered the child solemnly.—Philadelphia North American.

FACTS

About the "Standard" Wickless BLUE FLAME OIL STOVE.

IT burns common coal oil. IS simple as an ordinary lamp without its danger.

A child can operate it. Absolutely safe.

BEAUTY in design and finish. YOU can have a cool kitchen in the summer.

CANNOT fail to please. AFFORD IT? Yes, it will save its cost in a season.

TO roast or toast, bake, broil or stew. Does its work well and quickly. WITHOUT brains. Only a little coal oil and a match.

IT does the rest. The stove is the product of the latest inventive genius. Leakage or explosion impossible. It is cheaper than wood. Don't fail to call and see our large line.

DAVIDSON'S CASH BARGAIN STORE, 4 doors East of Postoffice. The best place to trade in Arizona.

NEWS

OF THE

TOWN

DANCE FRIDAY NIGHT.—A dance will be given at the O'Neill hall Friday night at which Feuerstein's orchestra will furnish music.

STOLE A BICYCLE.—A pupil of the Indian school was arrested yesterday on a warrant from Justice Johnstone's court for stealing a bicycle.

AT HIS OLD POST.—Bingham Morse, who has recently returned from a three months' trip to New Orleans, is again in his position at the War.

"CHIMES OF NORMANDY."—Last night the Philharmonic club rehearsed the "Chimes of Normandy," which will be presented about the last of this month.

FIRE MEETING.—The Yucatec Hose company will hold a meeting tonight at the hose house, where the election of officers for the ensuing year will take place.

NEW NOTARIES.—Notarial commissions were issued yesterday to Carl Calvig and A. J. Howell of Gila county, William August of Pima, and John A. Rockefeller of Cochise.

CIVIL SERVICE.—The civil service examination scheduled for Tuesday and Wednesday will be held in the grand jury room of the court house. Today the examination begins at 9 a. m. sharp.

RITA HART'S CASE CONTINUED.—The case of Rita Hart, arrested for an aggravated assault on Ysidor Onfiguero, was continued in Justice Johnstone's court yesterday until this afternoon, at her request.

HAS A BROKEN LEG.—Major James McClintock has received word that Albert McMillan, the Rough Rider, recently had a leg broken at Col. Brodie's mine at Crown Point, where he had been employed. McMillan was a member of Troop B, commanded by Major McClintock.

THE TEXAS PICNIC.—The Texans of the Salt River valley will hold their second annual picnic at the park on San Jacinto day, April 21, the anniversary of the day on which General Sam Houston whipped the whole republic of Mexico. The first picnic of the Texas society a year ago was a very pleasant and successful affair.

NEW MINING CORPORATION.—Articles of incorporation of the International Co-operative Mining company were filed in the office of the county recorder yesterday. The incorporators are C. T. Pepper, J. A. Merritt, U. S. G. Todd, E. W. Dean and J. H. Phillips. The capital stock is \$100,000, divided into 10-cent shares.

NEW FIRE PLUGS.—A special meeting of the city council was held last night for the purpose of establishing new fire plugs. One was located at Second and Pierce streets, in Churchill's addition, and another at Fourth and Pierce. It was also decided to put a fire plug in Montgomery's addition, the precise location to be fixed later.

PROMISING MINES.—Andrew Kozik came down yesterday from Gregg and Norris' mine, the Electric, where he has just finished a contract for sinking a shaft. The property is in the Black canyon district and is believed to be very rich in copper and gold. Kozik has also located a mine of his own, called the Domes, in the same neighborhood.

THE FORD INQUEST.—The inquest regarding the killing of Jack Ford was concluded yesterday before Justice Johnstone. The proceedings were formal. There were only two witnesses, Angel Asparac, who saw the killing, and Robert Luns, who heard the shot. The jury found that Ford had been maliciously murdered by James Daniels.

DEMANDING ATTENTION.—The Republican has called attention to the broken ditch bridge at the corner of West Van Buren street and Third avenue. It has long been a dangerous place for horses. At the corner of East Monroe and Sixth streets there is an overflow every four days which should be attended to. There is similar trouble at the corner of East Van Buren and California streets.

A NEED OF A SHAVE.—Mr. Paul Hull returned yesterday morning from a visit to Yuma and Tucson. The latter place impressed him favorably and he was very much interested in the former. He was asked what he thought of the country between the two towns. "I didn't see any country," he replied; "there isn't any country, but it struck me that the face of nature in that part of Arizona is in need of a shave. The giant cacti stand up everywhere like bristles."

A SENSATIONAL ARREST.—A quite sensational arrest was made yesterday when Pedro G. de la Lama was taken into custody on the charge of violating the "age of consent" law. The complaining witness is a young girl of sixteen, Rosa Peralta, whose woes culminated yesterday morning in the birth of a babe. The defendant was brought before Justice Johnstone, who set his hearing for tomorrow afternoon. The defendant is a married man and is the editor and proprietor of El Democrita, a weekly journal which has been published in Phoenix for the last two years.

A BEAR FIGHT.—The stuffed bear in front of McKelligon's saloon is securely fastened at present, and wedged by a stone. This is a result of an incident which occurred Sunday night. An unfortunate foreigner who had imbibed too freely that night no-

ticed the bear in the course of his rambles, and thinking it was an amiable creature sought to subdue it. He may have been an old bear fighter or not, but he managed to obtain a good hold on the animal and shortly both were sprawled on the sidewalk. "Me wresle bear," he exclaimed, "and sometime throw bear and sometime bear throw me." Evidently one or the other had been the case.

A DRAWING CARD.—The colored boys of Fort Grant have a base ball team organized and it has been suggested that it take a tour, including such points in the territory as Bisbee, Tucson, Phoenix and Congress. The games could be arranged in such a manner that each town visited would bear its portion of the expense, which by that method would be considerably lightened. There is no doubt as to the ability of the soldiers to play ball, and they would be an exceptionally good drawing card for another reason. They belong to the Tenth cavalry and probably all of them were present at the engagement in Cuba where the colored regiment rendered such creditable assistance to the Rough Riders.

THE PLANET SATURN.—Men are now at work on the shaft of the Planet Saturn mine in Fool's Gulch. It is the intention to sink a shaft so that it will be 1,000 feet deep, whence a tunnel will be drifted 100 feet at the base. Since the mine has been reopened it has been growing richer with each increase of depth. A ten-ton compressor will be used. The present working is an experiment and the mills will be used for the same purpose. The property was once abandoned, but was reclaimed and it is thought that by a new process of treating the ore it will prove very successful. There is a plentiful supply of water on hand and if the present testing of the sulphide ores proves satisfactory a large number of stamps will be in operation.

IS TEA INJURIOUS?—Henry H. Wakeman stopped a few hours in Phoenix yesterday. He is en route to San Francisco. Mr. Wakeman has lately returned from a trip to China. He has for a number of years been interested in importing teas from that country, but he has observed in recent years that China tea is losing prestige. The India-Ceylon teas are fast gaining favor in foreign markets and they are now making strong competition. While they do not compare with the excellence of the finer grades of China teas, they are to a large extent supplanting the cheaper grades, and large quantities are being used for mixing purposes. On account of the high import duties at present, shippers into the United States usually handle a low grade of tea in order to realize any profit whatever when the tea is sold in the American market. The people will not pay more for their teas than they have been accustomed to, and at times of high tax they prefer a lower grade of tea to an increase in price. One thing which has caused the increase of popularity for India-Ceylon teas has been the enormous amount of advertising done for it, while China tea has stood entirely upon its merits. Mr. Wakeman was asked his opinion as to what extent, if any, tea was injurious to the human system. He said that he did not feel competent to reply. That was a matter of individual opinion. Yes, he had noticed one thing in particular, which would tend to show that tea was certainly not very injurious. He cited England and other large tea-consuming countries where the people are healthy and do not noticeably suffer from the use of tea.

McKelligon's where you can get the finest hand-made sour mash, bourbon and Pennsylvania rye whiskeys.

PERSONAL MENTION.

Dr. A. J. Chandler of Mesa is at the Hotel Adams.

T. W. Cawgill of Reno, Nev., arrived at the Ford yesterday.

THEY RAN AWAY. The Marshal Brought Them and Locked Them Up. D. D. Cotta and Lizzie Laya who were indicted by the United States grand jury decided that they would forfeit their bail and get out of reach of the arm of the law. The charge for which they were held is adultery. United States Marshal Griffith went after them and last night they were brought in and locked up in the county jail. They will probably be tried tomorrow.

George Williams who was indicted for forgery, pleaded guilty this morning. Williams was a private in the Ninth cavalry and he changed his military papers so that they were of greater value to him than according to the way Captain Price had written on them. He will be sentenced on Saturday. The jury in the case of the government against Pedro Lopez could not agree. Lopez is charged with selling liquor to Indians. The jury went out yesterday afternoon and remained locked up until midnight. The territorial grand jury returned two indictments this afternoon. Jose Mangula is charged with the murder of a steamer at the Silver Bell mine in 1882. He was also indicted on a second charge which was the cause for which he was arrested, that of assault with a deadly weapon. Jesse Mangula was also indicted for the same offense.—Tucson Citizen.

According to Hon. Oliver Perry Hazard Belmont's description of his position, he is a gold man whose convictions are not called down.

Consumption is preventable? Science has proven that, and also that neglect is suicidal. The worst cold or cough can be cured with Shilo's Cough and Consumption Cure. Sold on positive guarantee for over fifty years. Dr. G. H. Keefer, Druggist.

T., will be opened at the City Recorder's office in the City Hall of said City for the entry of the names of the electors entitled to vote at the general municipal election May 2, 1899, as prescribed by law, for the election of municipal officers and for voting upon

A BIRD AND A BOTTLE make an excellent combination for supper, providing the bird is gamey enough and the bottle has been secured from us. OUR WINES AND LIQUORS MEET WITH THE APPROVAL OF THOSE WHO KNOW A GOOD THING WHEN THEY TASTE IT. THE W. A. WATTS CO. O'Neill Building, Cor. Adams and First Avenue.

IT'S AFTER EFFECTS upon the human system are often more dire in their results than is the disease itself. No organ of the human system is more easily affected by a gripe than are the eyes. It seems to have a peculiarly weakening effect upon the nerve and muscle appendages of this delicate organ, making the use of glasses almost imperative. Then it is wise to exercise the same care in glass selection as is observed in your treatment of the disease. I can strengthen eyes that GRIP has weakened.
